## **Home Office Handbook (Hewlett-Packard Press)** Barbara Butler

As more and more companies allow their employees to work from home, the need for setting up a home office will increase. However, setting up a home office is much more than just hooking-up your PC to a modem. In the past 4 years, the home-office furniture business has jumped up 31% to \$2.5 billion, and computer and related hardware sales continue to skyrocket as more and more people plug-in. This book will walk you through the steps of determining what type of home office will suit you best, choosing the type of equipment required (including types of Internet access), determining the set-up of the office to allow for cost and space efficiency, and keeping the office running smoothly.
