Laryngeal Evaluation: Indirect Laryngoscopy to High-Speed Digital Imaging

Laryngeal Evaluation: Indirect Laryngoscopy to High-Speed Digital Imaging

This comprehensive, full-color reference provides a thorough overview of the most recent advances in laryngeal imaging technology combined with all of the information readers need to interpret findings and successfully manage patients with voice disorders.

After a solid introduction to laryngeal anatomy and physiology, separate sections cover the entire spectrum of laryngeal imaging systems. The authors place special emphasis on the interpretation of abnormal vibratory characteristics through practical discussion of the differential diagnosis of specific abnormalities and the impact of various types of laryngeal pathology on the vocal cords. The accompanying DVD features high-quality video clips of vocal fold vibration that clearly demonstrate every pathology and evaluation technique cited in the text. Each clip is cross-referenced to a specific location in the book for maximum accessibility.

Features:

- In-depth coverage of the indications and limitations of flexible laryngoscopy, videostroboscopy, and high-speed imaging
- 66 video clips of actual examinations - plus an appendix that contains a complete description and interpretation of each clip
- 284 full color images, including endoscopic views of the larynx and photographs that demonstrate how to perform examinations
- Multiple perspectives from renowned speech language pathologists and otolaryngologists on how to interpret findings and determine treatment options

Written by a multidisciplinary team of experts, this book will help speech-language pathologists, otolaryngologists, and trainees in those specialties acquire the necessary skills to enable them to expand their practices to incorporate laryngeal imaging procedures in the clinical setting.

From reader reviews:

Valerie Wright:

Book will be written, printed, or highlighted for everything. You can learn everything you want by a publication. Book has a different type. We all know that that book is important thing to bring us around the world. Next to that you can your reading ability was fluently. A book Laryngeal Evaluation: Indirect Laryngoscopy to High-Speed Digital Imaging will make you to possibly be smarter. You can feel considerably more confidence if you can know about everything. But some of you think which open or reading some sort of book make you bored. It is not necessarily make you fun. Why they are often thought like that? Have you searching for best book or ideal book with you?

Gregory Morrow:

Precisely why? Because this Laryngeal Evaluation: Indirect Laryngoscopy to High-Speed Digital Imaging is an unordinary book that the inside of the guide waiting for you to snap the item but latter it will distress you with the secret it inside. Reading this book close to it was fantastic author who have write the book in such amazing way makes the content within easier to understand, entertaining method but still convey the meaning entirely. So , it is good for you because of not hesitating having this ever again or you going to regret it. This amazing book will give you a lot of positive aspects than the other book have got such as help improving your ability and your critical thinking technique. So , still want to hold off having that book? If I have been you I will go to the e-book store hurriedly.

James Donofrio:

Are you kind of active person, only have 10 or perhaps 15 minute in your time to upgrading your mind skill or thinking skill also analytical thinking? Then you are experiencing problem with the book as compared to can satisfy your short time to read it because this all time you only find book that need more time to be read. Laryngeal Evaluation: Indirect Laryngoscopy to High-Speed Digital Imaging can be your answer mainly because it can be read by you actually who have those short extra time problems.

Judith Ellis:

As a scholar exactly feel bored in order to reading. If their teacher requested them to go to the library or even make summary for some book, they are complained. Just small students that has reading's soul or real their leisure activity. They just do what the instructor want, like asked to the library. They go to presently there but nothing reading seriously. Any students feel that reading through is not important, boring along with can't see colorful photos on there. Yeah, it is for being complicated. Book is very important in your case. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. So , this Laryngeal Evaluation: Indirect Laryngoscopy to High-Speed Digital Imaging can make you sense more interested to read.
