Information Technology in Geo-Engineering: Proceedings of the 1st International Conference (ICITG) Shanghai D.G. Toll, H. Zhu, X. Li

Information technology (IT) is now intrinsic to many aspects of our lives, and this is no less so for the field of geo-engineering, where it is widely used. This volume presents the proceedings of the First International Conference on Information Technology in Geo-Engineering in Shanghai, September 2010. The conference brought together engineers, scientists, researchers and educators to review new developments and IT advances in geo-engineering and provided a forum for the discussion of future trends. Information technology evolves constantly, and the innovative concepts, strategies and technologies which have sprung up are becoming ever more important to all aspects of geo-engineering; facilitating design processes, improving construction efficiency and lowering maintenance costs. These topics are among the many addressed here. Of interest to all those involved in the field of geo-engineering, it is hoped that this volume will prove to be the first of a series to cover regular international conferences on this increasingly important subject.

IOS Press is an international science, technical and medical publisher of high-quality books for academics, scientists, and professionals in all fields.

Some of the areas we publish in:

- Biomedicine
- Oncology
- Artificial intelligence
- Databases and information systems
- Maritime engineering
- Nanotechnology
- Geoengineering
- All aspects of physics
- E-governance
- E-commerce
- The knowledge economy
- Urban studies
- Arms control
- Understanding and responding to terrorism
- Medical informatics
- Computer Sciences

From reader reviews:

Margaret Burton:

Playing with family in the park, coming to see the coastal world or hanging out with buddies is thing that usually you have done when you have spare time, subsequently why you don't try issue that really opposite from that. A single activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you are ride on and with addition associated with. Even you love Information Technology in Geo-Engineering: Proceedings of the 1st International Conference (ICITG) Shanghai, it is possible to enjoy both. It is great combination right, you still desire to miss it? What kind of hang-out type is it? Oh can happen its mind hangout guys. What? Still don't get it, oh come on its known as reading friends.

William Svendsen:

You are able to spend your free time you just read this book this book. This Information Technology in Geo-Engineering: Proceedings of the 1st International Conference (ICITG) Shanghai is simple to develop you can read it in the park your car, in the beach, train and also soon. If you did not have much space to bring the actual printed book, you can buy the actual e-book. It is make you simpler to read it. You can save the book in your smart phone. Thus there are a lot of benefits that you will get when you buy this book.

Caroline Gonzalez:

Guide is one of source of expertise. We can add our understanding from it. Not only for students and also native or citizen have to have book to know the update information of year for you to year. As we know those ebooks have many advantages. Beside most of us add our knowledge, can bring us to around the world. From the book Information Technology in Geo-Engineering: Proceedings of the 1st International Conference (ICITG) Shanghai we can take more advantage. Don't you to be creative people? For being creative person must want to read a book. Just choose the best book that appropriate with your aim. Don't become doubt to change your life with that book Information Technology in Geo-Engineering: Proceedings of the 1st International Conference (ICITG) Shanghai. You can more inviting than now.

Pedro Murray:

Reading a book make you to get more knowledge from it. You can take knowledge and information from your book. Book is published or printed or outlined from each source that filled update of news. In this particular modern era like currently, many ways to get information are available for an individual. From media social including newspaper, magazines, science publication, encyclopedia, reference book, novel and comic. You can add your knowledge by that book. Isn't it time to spend your spare time to open your book? Or just seeking the Information Technology in Geo-Engineering: Proceedings of the 1st International Conference (ICITG) Shanghai when you essential it?
