Non-Small Cell Lung Cancer: Across the Continuum of Care Maureen F. Zakowski MD-Chair, MD Mark A. Socinski, Jyoti Patel

This Clinical Resource Tool is structured around consensus statements developed by the Non-Small Cell Lung Cancer (NSCLC) Working Group, a panel of oncologists with particular expertise in the multidimensional care of patients with advanced lung cancer. Using a modified Delphi process, the NSCLC Working Group has consolidated published evidence and expert clinical experience on critical issues pertaining to the comprehensive assessment of patients with advanced NSCLC, formulation of appropriate treatment regimens, implementation of maintenance therapy, and therapeutic alliances among pathologists, oncologists, and pulmonologists. The consensus statements and accompanying resources are intended as a practical companion to current guidelines, helping clinicians individualize best-practice care for their patients with advanced NSCLC.
