Ragnar Axelsson is one of Iceland's best-known photojournalists. For over 15 years, he has been documenting people in the North Atlantic. In this book of nearly 200 photographs, Axelsson turns his lens on the Arctic, which is warming faster than any other region on earth. Axelsson's gorgeous photographs, mostly in black and white, show vast glaciers, sleds gliding across ice, and houses mostly buried in snow, but they also depict how the Inuit's way of life is transforming drastically as a result of climate change, prefiguring the enormous changes that are on their way to the rest of the world.
