The English language, the language of the ENGLISH, has a vast vocabulary, and is considered to be the most widely spoken language in the world.

A student can consult a dictionary or a thesaurus and know the meaning of a word, but cannot, in most cases, identify the similar English word or words or synonyms as they are called, that can be used in place.

While compiling this work, English variants, currently in use in different English-speaking world, as well as non-English words commonly in use in English language, have been considered.

Spelling of the British press have been given priority and considered correct. The spellings adopted are for the most part, but not invariably, that of the Oxford English Dictionary. However, in cases of verbs containing suffix-ise & suffix-ize, the most commonly used spelling or spellings have been used.

The author does not consider himself omniscient of this beautiful language and may be guilty of errors and omissions, which, he shall soon learn after publication of this work.
