Regency Women's Dress: Techniques and Patterns 1800-1830

Cassidy Percoco

Regency Women's Dress: Techniques and Patterns 1800-1830 Cassidy Percoco
The distinctive style of the Regency period is a source of endless fascination for fashion academics and historians, living historians, re-enactors and costume designers for stage and screen. Author and fashion historian Cassidy Percoco has delved into little-known museum hoards to create a stunning collection of 26 garments, many with clear provenance tied to a specific location, which have never before been published and never or very rarely displayed. Most of the garments have an aspect in their construction that has not been previously documented, from a style of skirt trim to the method of gown closure. This practical guide begins with a general history of the early 19th-century women's dress. This is followed by 26 patterns of gowns, spencers, chemises, and corsets, each with an illustration of the finished piece and description of its construction. This must-have guide is an essential reference for anyone interested in the fashions or the history of the period, or for anyone wishing to recreate their own beautiful Regency clothing.
