Awakening the Third Eye: Discovering the True Essence of Recapitulation Lujan Matus

Our third eye is nothing less than a porthole to gnosis. We have an inbuilt ability to access infinite wisdom that is absolutely pertinent to our lives yet is often inaccessible due to its enigmatic nature.

Glimpses of our universal connectivity come to us in subtleties, signs and intuitions that brush against us gently or urgently, bringing vital messages that link us to a larger arena of activity, relentlessly inviting us to become aware of our galactic context. These are veiled communications from our third eye matrix. To cultivate receptiveness to this ongoing exchange is to travel into full remembrance of who we are.

This book offers invaluable insight into how to recognize and develop your own relationship with the magical faculty of third eye seeing and ways to integrate that into daily life practices.

Lujan Matus deftly ushers us into the heart of the mysteries of perception and consciousness, presenting new perspectives on our place in the universe and what we are capable of. His teachings trigger welcome revolutions in consciousness and the many techniques he gives here are powerful tools for personal transformation.

Amongst those techniques are exercises for becoming aware of the blue spectrum, the highest vibration of light, where all manner of energetic activity is taking place in an eternally fluctuating exchange. Developing the capacity to perceive that luminous interactivity reveals a magical aspect of seeing which inevitably becomes a conduit to a new way of being.

This publication broadens the bandwidth, illuminating with dimensional yet practical information and clearly indicating an entry point into parallel perceptions, possibilities and potentialities such as we have only dreamed of.
