The following from: <http://www.hachettebookgroup.com/features/scottturow/one-l.htm> One L, Scott Turow's journal of his first year at law school and a best-seller when it was first published in 1977, has gone on to become a virtual bible for prospective law students. Not only does it introduce with remarkable clarity the ideas and issues that are the stuff of legal education; it brings alive the anxiety and competitiveness - with others and, even more, with oneself - that set the tone in this crucible of character building. Turow's multidimensional delving into his protagonists' psyches and his marvelous gift for suspense prefigure the achievements of his celebrated first novel, Presumed Innocent, one of the best-selling and most talked about books of 1987. Each September, a new crop of students enter Harvard Law School to begin an intense, often grueling, sometimes harrowing year of introduction to the law. Turow's group of One Ls are fresh, bright, ambitious, and more than a little daunting. Even more impressive are the faculty. (edited here for length) Will the One Ls survive? Will they excel? Will they make the Law Review, the outward and visible sign of success in this ultra-competitive microcosm? With remarkable insight into both his fellows and himself, Turow leads us through the ups and downs, the small triumphs and tragedies of the year, in an absorbing and thought-provoking narrative that teaches the reader not only about law school and the law but about the human beings who make them what they are. In the new afterword for this edition of One L, the author looks back on law school from the perspective of ten years' work as a lawyer and offers some suggestions for reforming legal education.
