## **BOOK #1: MMF: Attracted by Bad Boys**

Allison Moore was young, beautiful, and intelligent. Fresh out of college with a law degree from the University of Michigan, she has just landed a job as attorney for a prestigious law firm in Grand Rapids, MI. The hours are long, but the pay is great and she's doing what she loves. Any outsider would say that Allison has it all.

For her, however, there is still one more thing Allison needs to make her life complete – love. The trouble is that Allison has always had a knack for picking the wrong guy. She has always been attracted to the bad boy. While she can never say why, if there is no element of danger, she just isn't interested. The problem, of course, is that those types of relationships always end, and usually badly.

When Allison's law firm represents Mitch Whitney, a man arrested for a string of brutal muggings in Grand Rapids, Allison feels that same spark. She knows it's wrong. He's a client and the evidence against him is pretty strong. But, he is her type after all. When Allison and her firm get Mitch off on a technicality, Allison can't resist Mitch's advances.

Matt Barnes works with Allison and has been attracted to her beauty, brains, and personality from the first day he met her. The problem is, he's just too... normal. He sees what is happening with Mitch and doesn't like it, for far more reasons than jealousy. Matt wants desperately to convince Allison to break her bad boy cycle and realize how happy she could be with a "normal" guy like him. Can Allison, with all her intelligence ever see this?

## **BOOK #2: MMF: Dirty Night Shift**

Spencer has settled for the threesome arrangement with her two co-workers for as long as she can remember but she just can't take it anymore. She doesn't even know why she agreed to it in the first place. Maybe it's the way Blake smiles at her or the way he makes her feel when he's around but she's jealous of Hannah and her perfect super model body and she seriously wants more from Doctor Blake but there is no way he would go for that.

Can Spencer really run the risk of losing him forever or will she go along with their arrangement and settle for what she can get off him? It's a question she has asked herself every shift since they started their arrangement and it's a question she might be too scared to answer. There are only two options: go with it or risk losing everything.

Her life as she knows it is about to change forever but will that change be for the good or will she find herself heart broken and alone? Only time will tell is Spencer is destined to be second best for the rest of her

life or whether she can finally have what she has always wanted: Doctor Blake all to herself.
