## **Electrical Stimulation of the Heart in the Study and Treatment of Tachycardias** Hein J.J. Wellens

The interplay between the careful analysis of clinical electrocardiograms and results from animal experiments have in the past 60 years resulted in provocative and brilliant concepts on the mechanisms of cardiac arrhythmias in man. Many of the animal experiments however were done on open-chested dogs with cut cardiac nerves and under the influence of pharmacological agents. It is doubtful, therefore, whether these results can be transferred without reservation to the human situation. The introduction of electrical stimulation of the heart in clinical cardiology has opened new ways to study some aspects of cardiac arrhythmias directly in the unanesthetized patient. This study reports observations on patients who were admitted to the University Department of Cardiology, Wilhelmina Gasthuis, Amsterdam, for the evaluation and treatment of tachycardias. Electrically induced premature beats were used in an effort to elucidate the origin and mechanism of these tachycardias. The first chapter is on classification and diagnosis of tachycardias with special emphasis on our current knowledge of the differential diagnosis between supraventricular tachycardias with aberrant conduction and ventricular tachycardias. This is followed by theoretical considerations on tachycardias especially in relation to the methods used in this study. After an outline of these methods the results of our studies in patients with atrial flutter, A-V junctional tachycardias and tachycardias related to the pre-excitation syndrome are reported. A discussion on the value of electrical stimulation for the treatment of tachycardias is followed by a summary of our results.

### **From reader reviews:**

#### **Abel Mulholland:**

Book is definitely written, printed, or highlighted for everything. You can learn everything you want by a guide. Book has a different type. As it is known to us that book is important matter to bring us around the world. Next to that you can your reading skill was fluently. A publication Electrical Stimulation of the Heart in the Study and Treatment of Tachycardias will make you to become smarter. You can feel a lot more confidence if you can know about almost everything. But some of you think that will open or reading some sort of book make you bored. It is far from make you fun. Why they might be thought like that? Have you looking for best book or suitable book with you?

#### **Marquita Oswald:**

Information is provisions for those to get better life, information these days can get by anyone in everywhere. The information can be a information or any news even a concern. What people must be consider whenever those information which is in the former life are difficult to be find than now is taking seriously which one would work to believe or which one the particular resource are convinced. If you find the unstable resource then you get it as your main information it will have huge disadvantage for you. All of those possibilities will not happen with you if you take Electrical Stimulation of the Heart in the Study and Treatment of Tachycardias as the daily resource information.

#### **Peter Robey:**

Reading a book to get new life style in this 12 months; every people loves to learn a book. When you examine a book you can get a lots of benefit. When you read textbooks, you can improve your knowledge, simply because book has a lot of information in it. The information that you will get depend on what sorts of book that you have read. In order to get information about your analysis, you can read education books, but if you want to entertain yourself read a fiction books, these kinds of us novel, comics, along with soon. The Electrical Stimulation of the Heart in the Study and Treatment of Tachycardias provide you with a new experience in studying a book.

#### **Jean Mora:**

In this age globalization it is important to someone to get information. The information will make a professional understand the condition of the world. The healthiness of the world makes the information simpler to share. You can find a lot of sources to get information example: internet, classifieds, book, and soon. You can see that now, a lot of publisher in which print many kinds of book. The book that recommended to you is Electrical Stimulation of the Heart in the Study and Treatment of Tachycardias this reserve consist a lot of the information on the condition of this world now. This kind of book was represented how can the world has grown up. The vocabulary styles that writer use for explain it is easy to understand. The actual writer made some investigation when he makes this book. Honestly, that is why this

book suited all of you.
