Lectures on Functional Equations and Their Applications (Dover Books on Mathematics)

J. Aczel, Mathematics

Lectures on Functional Equations and Their Applications (Dover Books on Mathematics) J. Aczel, Mathematics

This systematic treatment of one of the oldest topics of mathematical analysis--the solution of functional equations--features numerous detailed proofs. Thorough and elementary in its approach, it will benefit upper-level undergraduates as well as graduate students.

The text is divided into two parts: equations for functions of a single variable and equations for functions of several variables. Starting with equations that can be solved by simple substitutions, the first part examines the solution of equations by determining the values of the unknown function on a dense set. It also surveys equations with several unknown functions and methods of reduction to differential and integral equations. The second part begins with simple equations and advances to composite equations, equations with several unknown functions of several variables, and reduction to partial differential equations. The text concludes with explorations of vector and matrix equations.

From reader reviews:

Lavelle Hildreth:

This Lectures on Functional Equations and Their Applications (Dover Books on Mathematics) book is just not ordinary book, you have after that it the world is in your hands. The benefit you obtain by reading this book is definitely information inside this guide incredible fresh, you will get details which is getting deeper anyone read a lot of information you will get. This kind of Lectures on Functional Equations and Their Applications (Dover Books on Mathematics) without we know teach the one who looking at it become critical in thinking and analyzing. Don't always be worry Lectures on Functional Equations and Their Applications (Dover Books on Mathematics) can bring if you are and not make your handbag space or bookshelves' come to be full because you can have it inside your lovely laptop even telephone. This Lectures on Functional Equations and Their Applications (Dover Books on Mathematics) having good arrangement in word as well as layout, so you will not experience uninterested in reading.

Gerald Patton:

As people who live in the particular modest era should be change about what going on or info even knowledge to make these people keep up with the era that is certainly always change and progress. Some of you maybe will certainly update themselves by reading books. It is a good choice in your case but the problems coming to a person is you don't know what kind you should start with. This Lectures on Functional Equations and Their Applications (Dover Books on Mathematics) is our recommendation so you keep up with the world. Why, since this book serves what you want and need in this era.

Judith Judd:

This book untitled Lectures on Functional Equations and Their Applications (Dover Books on Mathematics) to be one of several books this best seller in this year, here is because when you read this guide you can get a lot of benefit onto it. You will easily to buy that book in the book retail outlet or you can order it through online. The publisher on this book sells the e-book too. It makes you quicker to read this book, since you can read this book in your Mobile phone. So there is no reason to your account to past this e-book from your list.

Rhonda Lanham:

Your reading 6th sense will not betray you, why because this Lectures on Functional Equations and Their Applications (Dover Books on Mathematics) publication written by well-known writer whose to say well how to make book that can be understand by anyone who have read the book. Written within good manner for you, dripping every ideas and publishing skill only for eliminate your own personal hunger then you still uncertainty Lectures on Functional Equations and Their Applications (Dover Books on Mathematics) as good book not simply by the cover but also by the content. This is one reserve that can break don't assess book by its handle, so do you still needing another sixth sense to pick this specific!/? Oh come on your looking at sixth sense already alerted you so why you have to listening to an additional sixth sense.
