Captain Arystair Savar has seen more of war in his seventeen years than most retired officers. He has been defending his home colony from the Nova Federation ever since he graduated from the Army Academy at 14 years old. Still, even with every effort of the Fourth Colony soldiers, they are forced to abandon the half-destroyed colony for the safer planet of Bijordan.

Now displaced from the only home they know, the Special Forces of Fourth Colony have to adapt to a planet and culture they've little experience with. After only a few weeks on Bijordan, they discover that Nova isn't satisfied with just Fourth Colony. They want Bijordan's wealth and resources as well.

While the Special Forces fight to find their footing in this strangely familiar environment, can they once again find a way to defend against Nova's schemes?
