The Wonders of the Human Body: Physical Regeneration According to the Laws of Chemistry and Physiology Dr. George W. Carey

“THE human race has been asleep, and has dreamed that property and money are the true wealth of a nation, sacrificing men, women and children to the chimerical idea that danced in visionary splendor through their brains. The result of this is to be seen in the uneasiness that prevails everywhere. But humanity is waking up, slowly but surely, and beginning to realize that it, itself, is the most precious thing on earth.”

Dr. George Washington Carey believed that both Religion and Science had failed to satisfy a basic human need - to understand the puzzle of existence. By fusing his medical knowledge with esoteric studies Dr. Carey devised a new way of looking at biblical characters and events: they were, he believed, coded 'personifications' of the cyclical physiological processes that occur in the human body and which lead an individual to both perfect health and to spiritual illumination. Writing in clear and easy to understand terms, Dr. Carey painstakingly unpicks the hidden meaning of the Bible stories, revealing a priceless treasure trove of information and recondite knowledge. This is a book for all who aspire to spiritual development, a work that can be revisited with profit throughout an individual's life.
