Read this book if you're ready to do more than lament how bad things are and are ready to take action for change." -- **Pedro A. Noguera**, Executive Director, Metropolitan Center for Urban Education, New York University

Black Youth Rising is a book that restores hope and possibility to the lives of urban black youth. In this pathbreaking account, author Shawn Ginwright details the powerful positive impact that community-based organizations can have in rebuilding the lives of urban black youth, in a process he calls radical healing. Readers can see how caring adults in a community setting are able to create safe spaces for youth to turn away from neighborhood violence and their own traumatic pasts. Together, young people build a refuge within their own community that allows them to turn away from the common dangers of street life and toward building healthy identities and a productive future for themselves and others.

Combining a theoretically grounded framework with practical strategies, *Black Youth Rising* offers a new model for understanding what African American youth need in order to succeed in school and in life. This book is essential reading for educators, social workers, community organizers, after-school coordinators, and all who work with inner-city adolescents.
