Perfect Your Cisco[registered] Networking Skills on a Virtual Network! If you're serious about passing the CCNA exam, you need hands-on experience with routers and switches. This unique software product offers unlimited opportunities for you to practice your skills on a virtual network. You can use the pre-designed networks in conjunction with labs that cover CCNA exam objectives - or design your own custom networks and labs. An affordable alternative to products and courses costing hundreds, even thousands, of dollars, the "CCNA Virtual Lab, Titanium Edition" gives you all the practical experience and know-how you need for success on the exam - and in the real world. You can work in pre-designed networks or make your own with the drag-and-drop capabilities of the Network Visualizer. You can create a network of unlimited devices that can be saved and used for further practice. You can access configuration consoles for network devices, including 2621Cisco routers and 1900, 2950, and 3550 Cisco switches, and practice using over 470 commands. You can test your troubleshooting skills using Net Assessment, a tool for generating and evaluating problem-solving scenarios. You can prepare for the exam with over 250 labs from Todd Lammle, including Two-Router Labs, VLSM Labs, an OSPF Lab, NAT-PAT Labs, a 3550 Switching Lab, Net Connect Labs, Standard Labs, and Extended Labs.
