R.E.A.L. Science Odyssey- Life (level one) (R.E.A.L. Science -Read, Explore, Absorb & Learn Science)

Terri Williams

You will find R.E.A.L. Science Odyssey (RSO) to be unlike any other science curriculum available. It is written specifically for home and small classroom use. Packed full of serious science and loads of fun, it is an incremental program that gently builds on itself and incorporates mathematics, scientific method, and science terminology. Created with the science novice in mind, you don't need any science background to teach RSO. Each book of RSO level one is a complete one-year science curriculum. Each topic in the RSO series of books is presented in an entertaining story-like format and is followed by hands-on activities along with background science information, parent instructions, labs, reading lists, journaling ideas, and websites. We strongly believe children benefit from using scientific method at an early age. RSO level one infuses scientific method and age-appropriate mathematics in every course. Students learn how to speculate, hypothesize, experiment, and conclude. Observation skills are developed through sketch drawings and written descriptions. Analytical skills are encouraged through comparing, forming questions, and interpretations. Students make age-appropriate calculations, plot results, make graphs, and diagram information, just like R.E.A.L. scientists! RSO Life (level one) is appropriate for 1st to 4th grade. The course is divided into three sections: the human body, the animal kingdom, and the plant kingdom. Students study the major body systems through making models and doing tests on their own bodies. Classification and the five kingdoms of living things are studied as students make an animal kingdom book. Animal kingdom labs include examining real worms, mollusks, arthropods, and butterfly metamorphosis. Students learn about the plant kingdom through looking at the makeup and function of seeds, flowers, leaves, stems, and roots. Each topic and/or subtopic will include 1 to 3 lessons complete with lesson story, labs, reading, and other activities. Each topic will take anywhere from 1 to 4 weeks to complete. Remember your child will also be having a whole lot of fun. Also included in this scope are laughing, playing, digging, exploring, reading, singing, and begging for more RSO!

From reader reviews:

Richard Hund:

Do you have favorite book? For those who have, what is your favorite's book? Book is very important thing for us to know everything in the world. Each guide has different aim or goal; it means that reserve has different type. Some people truly feel enjoy to spend their the perfect time to read a book. They are reading whatever they have because their hobby is usually reading a book. What about the person who don't like looking at a book? Sometime, individual feel need book once they found difficult problem or maybe exercise. Well, probably you should have this R.E.A.L. Science Odyssey- Life (level one) (R.E.A.L. Science -Read, Explore, Absorb & Learn Science).

Martin Norwood:

Book is to be different for every grade. Book for children till adult are different content. We all know that that book is very important for people. The book R.E.A.L. Science Odyssey- Life (level one) (R.E.A.L. Science -Read, Explore, Absorb & Learn Science) was making you to know about other understanding and of course you can take more information. It is quite advantages for you. The reserve R.E.A.L. Science Odyssey- Life (level one) (R.E.A.L. Science -Read, Explore, Absorb & Learn Science) is not only giving you a lot more new information but also to get your friend when you really feel bored. You can spend your current spend time to read your e-book. Try to make relationship using the book R.E.A.L. Science Odyssey- Life (level one) (R.E.A.L. Science -Read, Explore, Absorb & Learn Science). You never really feel lose out for everything in case you read some books.

James Hudson:

In this 21st hundred years, people become competitive in every way. By being competitive now, people have do something to make these survives, being in the middle of the crowded place and notice by surrounding. One thing that often many people have underestimated the idea for a while is reading. Yep, by reading a publication your ability to survive increase then having chance to stay than other is high. For you who want to start reading a book, we give you this R.E.A.L. Science Odyssey- Life (level one) (R.E.A.L. Science -Read, Explore, Absorb & Learn Science) book as beginning and daily reading guide. Why, because this book is greater than just a book.

Lorene Lord:

Many people spending their time by playing outside using friends, fun activity having family or just watching TV the entire day. You can have new activity to spend your whole day by reading through a book. Ugh, do you think reading a book will surely hard because you have to take the book everywhere? It all right you can have the e-book, bringing everywhere you want in your Cell phone. Like R.E.A.L. Science Odyssey- Life (level one) (R.E.A.L. Science -Read, Explore, Absorb & Learn Science) which is finding the e-book version. So , try out this book? Let's find.
