The Attraction Factor - 4 Simple Yet Powerful Principles That Will Melt Any Man's Heart Bob Grant

Hi, I'm Bob Grant

I'm a licensed relationship expert and bestselling author who's helped tens-of-thousands of women discover what men can't resist in a woman.

In this quick and yet powerful book you're going to learn the 4 factors (or secret ingredients) that when you practice them consistently touch a man's heart in a way that most women don't understand just how deeply they affect a man. Often when I share them with a client the first response is a surprised, "That's it?" Then I ask them what I'll ask you, "Do you want me to tell you something that sounds magical and gives you the impression that you can simply wave your magic wand and bewitch a man...or do you want me to tell you what works, even though you think you already know it?"

I mention this because you've probably done some of these things and might even think you understand them already. But here's my bet. I doubt you consistently use these principles. Most likely you pull them out whenever you feel the need but you don't make them a habit.

If you did, you'd soon realize that what makes them so powerful is how they flip an unconscious switch deep inside a man's brain that makes him look at you longingly and think of you long after you've left the room.

These 4 simple principles have proven to be effective again and again and work on almost any man.

Inside you'll discover the most powerful thing you can do to become more attractive to every man. In fact it's so simple that you won't believe me when I tell you.

Research has shown that it has a greater appeal than your looks, social status or anything else yet so few women use it to their advantage.

Inside I'll show you:

- * Why the being curious can make a man bond with you quicker than anything else.
- * The one question you should ask yourself that will show you how men really see you.
- * The difference between being just pretty and the ability to make a man intensely attracted to you.
- * Why you should focus on a great guy, not on making one particular guy great.

When you follow these easy guidelines you'll notice how men begin to see you as softer and more feminine. Instead of having to focus on being "perfect" you'll soon see how being yourself is actually much more appealing.

And much, much more.

You get all of this for less than you'd pay for a cup of coffee at Starbucks.
