These days many of us have discarded our old cookware for new non-stick, copper bottom, or other such utensils. However, you may have cast iron skillets that are hand-me-downs from your grandmother or mother. You will be amazed by the variety of dishes that can be prepared using a cast iron skillet – from simply stir-fried vegetables to a pie or a pizza. Cast iron vessels can nowadays be used even in a grill or oven, in addition to the stove top.

These skillets help in even distribution of heat and thus it is easy to get a golden crust for pancakes and cornbread. You would be surprised by the better taste you get from cooking in a cast iron skillet.

With proper seasoning cast-iron skillets have an almost non-stick surface. Food cooked in a cast-iron vessel contains more iron and hence is healthier. There is no risk of dangerous fumes as in non stick pans or toxic metals like aluminium or copper. So if you're wanting a better taste and prefer the style of cast iron cooking, then download this cast iron cookbook now!
